

**Stable temperature, always cool**

DynamicAir Technology creates an airflow, moving cool air around the fridge, so there's always a stable temperature in every corner. Preserving ingredients from losing shape or drying out.

Product Benefits & Features**Consistently cool, with DynamicAir**

DynamicAir makes sure that the environment inside your fridge is kept at a stable temperature. It works by circulating cool air throughout, meaning that even when the door is opened, your food is protected from heating up.

A game changer – unique fridge with recycled plastic

We're proudly introducing our unique fridge with an inner lining made of 70% recycled plastic. Plastic from discarded fridge is used to make new ones, helping reduce waste through circularity.

Inner liner rHIPS made with up to 70% recycled plastic representing 13% of total fridge plastic

Extra organization. With ExtraZone

Separate food groups with the ExtraZone drawer. To stay organised and always have the right ingredients to hand.

**Adjustable storage with CustomFlex®**

CustomFlex® gives you the freedom to customise your fridge space. The door interior has movable bins in different sizes, so you can adapt the space to suit your needs. The bins are even detachable, so you can remove them from the fridge for easy access.
